# This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and

social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

**\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.**

# INTRODUCTION

---

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1933 edition of the Greensboro City Directory.

Confidence in the continued growth of Greensboro's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Greensboro to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Greensboro Directory will fulfill its mission as a source of authentic information pertaining to the city.

## Population

The population of Greensboro is estimated at 58,769, based on the number of personal names in the Alphabetical section of the Directory, with due allowance for those under Directory age. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the Directory, and, likewise in the population estimate.

## Four Major Departments

The four major departments are arranged in the following order:—

**THE BUYERS' GUIDE**, pages 25 to 56, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Greensboro. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Greensboro, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

**THE ALPHABETICAL LIST OF NAMES** of residents and business and professional concerns is included in pages 57 to 392. This is the only record in existence intended to show the name, marital status, occupation and address of each adult resident of Greensboro, and the name, official personnel, nature and address of each firm and corporation in the city.

**THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE**, covers pages 393 to 519. In this section the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street.

**THE CLASSIFIED BUSINESS DIRECTORY** is included in pages 521 to 559. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

## Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of

this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Greensboro.

### **The Greensboro Directory Library**

Through the courtesy of the publishers of the Greensboro City Directory, a Directory Library is maintained in the offices of the Greensboro Chamber of Commerce, for free reference by the general public. This is one of more than 425 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

AERIAL VIEW OF GREENSBORO

## Statistical Review

Form of Government—Council-city manager.

Population—Total, 53,569; white males of age, 18,817; white females of age, 20,226; total colored, 14,050 (1930 U. S. Census). American-born, 99.1%.

Area—18.4 square miles.

Altitude—843 feet.

Climate—Mean annual temperature, 59 degrees F.; average annual precipitation, 47.47 inches.

Parks—16, with total of 291.2 acres, valued at \$15,000.

Assessed Valuation — \$105,451,820, with \$1.20 per \$100 tax rate.

Bonded Debt—\$6,405,389.06.

Financial Institutions—2 banks and 2 trust companies, with total deposits of \$22,639,310.30 (Dec. 31, 1932), and total resources of \$33,693,160.17 (Dec. 31, 1932). 3 building and loan associations, with total assets of \$3,615,736.46 (Dec. 31, 1932).

Postal Receipts—\$392,374.30 (calendar year 1932).

Telephones in Service—8,500.

Churches—73, representing 22 denominations.

Building and Construction—Value of building permits, \$205,247 (1932).

Real Estate—3,393 transfers made in 1932. 9,547 homes, with about 75% owned by occupants.

Industry—92 manufacturing establishments, employing 6,811 workers, paying wages of \$5,665,000 annually, and having products valued at \$38,782,000 annually (1929 U. S. Census of Manufactures). Principal manufactured products: Textiles, including hosiery, denims and overalls; garments, machinery, preparatory medicines and wood products.

Trade Area—Retail area has radius of 50 miles, and population of 874,289; wholesale area, radius of 100 miles, and population of 1,384,526.

Newspapers—2 dailies.

Radio Stations—WBIG.

Hotels—2, with total of 900 rooms. Newest hotel opened in 1927.

**Railroads**—2: Southern and Atlantic & Yadkin (Latter connects with Norfolk & Western, Norfolk & Southern, Seaboard Air Line and Atlantic Coast Line).

**Highways**—U. S. 29, 70, 411 and 421; State 10, 60, 64, 70 and 704.

**Airports**—1, municipal.

**Amusements**—Largest auditorium (North Carolina College for Women) seats 2,700 persons. 7 moving-picture theatres, with total seating capacity of 5,500 persons. 3 golf courses.

**Hospitals**—8 (including sanatoriums), with total of 400 beds.

**Education**—Institutions of higher learning include North Carolina College for Women, Greensboro College, St. Benedict's School, Bennett College for Women (c), Immanuel Lutheran College (c) and Negro Agricultural & Technical College of North Carolina. 19 public schools, including 1 senior high and 3 junior high. 1 parochial

## History

On March 15, 1781, the Battle of Guilford Court House was fought, five miles from what is now Greensboro. So intent was General Nathaniel Greene on crippling Cornwallis that he little realized he was to title a city of the future. Although the battle was not decisive, General Greene fought so fiercely that Cornwallis' army entered the Battle of Yorktown so crippled that it was unable to stem the triumphant wave of the American forces, and the victory at the end of the Revolution has been laid by authorities to the result of the Battle of Guilford Court House. The scene of this battle is now Guilford Court House National Military Park, a mecca for tourists and students of history, because it is known as "The Turning Point of the Revolution."

Guilford County was settled in 1772 by Scotch-Irish and German stock

WORLD WAR MEMORIAL STADIUM

school. Number of pupils in public schools, 11,000; teachers, 309. Value of public school property, \$4,225,000; parochial, \$23,000; college, \$8,555,000.

**Public Libraries**—2, with total of 39,624 volumes. Also college library open to public, with 65,000 volumes.

**City Statistics**—Total street mileage, 292, with 137.1 miles paved. Miles of gas mains, 99.39; sewers, 224; electric street railway, 13.02. Number of water meters, 9,875; light meters, 12,992; gas meters, 4,343. Capacity of water works (municipal), 1,417,000,000 gallons; daily average pump, 4,500,000 gallons; miles of mains, 166; value of plant, \$3,422,475. Fire department has 47 men, with 5 stations and 12 pieces of motor equipment. Value of fire department property, \$433,531.91. Police department has 48 men, with 1 station and 12 pieces of motor equipment.

from Pennsylvania, and English and Scotch Highlander immigrants. It was named for Frederick, Earl of Guilford, better known as Lord North. Its people were simple and rural. They possessed no large estates or wealth. They were intensely religious, democratic, arduous in the pursuit and advancement of education, energetic and thrifty, home-loving and liberty-seeking. The original county seat was Martinsville, where was fought the Battle of Guilford Court House.

In 1808 Greensboro was founded as the county seat of Guilford and named for the famous General Greene. The town site was located in the exact center of the county. Commissioners paid Ralph Gorrell \$98 for forty-two acres of land, and the new county capital and court house was laid off there.

Almost from its beginning Greensboro forged ahead in education. Dr. David Caldwell established his noted "Log College," the forerunner of several academies and schools founded in 1816, 1820, 1833 and 1836, leading up to the chartering in 1838 of Greensboro Female College, the grading of public schools in 1872, the establishment of North Carolina College for Women in 1892, and the building of three Negro colleges.

Prior to 1860 the city was Whig, and opposed to secession. John A. Gilmer, of Greensboro, was offered a place in Lincoln's cabinet, but the city, of course, finally supported the State and the Confederacy. It was at Greensboro that General Joseph E. Johnston disbanded his army, following his surrender to Sherman, and it was in the railway station here that Jefferson Davis held his last official

At the turn of the century Greensboro's real growth began. In 1892 came Caesar and Moses Cone to establish their cotton mills, and to begin such well-balanced industrial development as is rarely seen. Greensboro has forged steadily ahead industrially, commercially and educationally, capitalizing its advantages of accessibility, climate, ideal labor conditions, agriculture, power, transportation, raw materials and a spirit of progressiveness. Let us look at the Greensboro of today.

### Location

Greensboro is the pivot and focal point of the rich "Piedmont" section of the two Carolinas and a part of Virginia. It is equidistant from Atlanta and New York, each being twelve hours by rail and five by air. Here also crosses the main east-west

PAGEANT POSED ABOUT STATUE OF GENERAL NATHANIEL GREENE AT SESQUI-CENTENNIAL CELEBRATION OF BATTLE OF GUILFORD COURT HOUSE, JULY 4, 1931

cabinet meeting. Greensboro's citizens have always taken a prominent part in state affairs. John M. Morehead, as Governor, was one of the state's foremost proponents of good roads as early as 1840, and Edward B. Jeffries is now chairman of the State Highway Commission, which administers the entire highway system of the state, North Carolina having been the first state to consolidate state, county and township roads under a single control.

Greensboro had a cotton mill as early as 1834, but it was in Reconstruction days that it began to be an important commercial and industrial factor. Its central position in the state then, as now, was its chief reason for growth. Here three main traffic arteries (Federal highways) converge. In 1856 came the first railroad (built by the State).

traffic arteries of the state and one of the main north-south highways. Other important roads converge at Greensboro to make it the hub of highway transportation.

The Piedmont area of North and South Carolina contains 42% of the population of the two states, and produces over 73% of their industrial output. From Greensboro into all sections of the Piedmont diverge the belts of traffic, over railroads and highways. That Greensboro is the logical, dominant "pivot" of this area is demonstrated by the fact that over 1,500 traveling salesmen and agency representatives have their homes and headquarters here.

Two railroads serve Greensboro: The Southern and the Atlantic & Yadkin. The Norfolk & Western, Seaboard Air Line, Atlantic Coast Line and Norfolk & Southern employ the At-

lantie & Yadkin as a connection with Greensboro, giving the city the competition service of five railroads. Forty-eight passenger trains arrive and depart daily in six directions from a new and modern \$1,000,000 station. The main north and south double-track line of the Southern intersects the main east and west trans-state line of the Southern at Greensboro. All important grade crossings have been separated to safeguard life and property and to speed traffic. Sixty-five buses leave here daily for every section of the state, as do a complete system of regulated motor transport lines.

Two northbound and two southbound air mail planes leave the Greensboro airport daily, besides two passenger planes in each direction. A letter mailed here after business hours will be in New York or Atlanta the following morning by rail, and in Chicago that morning by air.

#### Municipal Government

Greensboro has been especially fortunate in its selection of those men into whose hands its affairs of government are placed, and great municipal progress has been made by means of the complete confidence held by the taxpayers in the integrity and ability of the municipal officials. With a councilmanic-city manager form of government and non-partisan elections, modern machinery is provided for the efficient dispatch of the city's business, which insures the services of business leadership of the highest character. At the helm of Greensboro's municipal government there have long been business men of the highest character and business judgment, often at great personal sacrifice to themselves.

Among those who have served on the city council are men who have made outstanding successes of their own businesses. These men have brought to the city a managerial skill never possessed by cities influenced by petty partisan politics. As a result the physical facilities of Greensboro are strikingly attractive and effective.

Greensboro has good water, and plenty of it, carefully safeguarded as to purity and sanitary distribution. The water works have a capacity of 1,417,000,000 gallons, with a 21,000,000-gallon reservoir for filtered water, a supply sufficient to serve the city for many years to come.

The sewer system is comprehensive, well-planned and adequate, with 224 miles of mains laid. A highly-effective modern disposal system is in operation, and enlargements to ac-

commodate future needs have recently been completed.

A well-planned program of street-widening, as well as paving, is being carried on under a comprehensive city plan designed to provide Greensboro unusually adequate intra-city transportation facilities. The mileage of paved streets in the corporate limits has steadily increased from 32 miles in 1922 to 137.1 miles in 1933. Thoroughly up-to-date automatic traffic control systems have been installed at 29 possible danger points. The streets, totaling 292 miles, are well-kept and clean.

Greensboro's public school system is a point of genuine pride, having been recently rated 96.4 out of a possible hundred by the North Carolina Department of Education. The 11,000 school children have 19 modern school buildings, including three junior high schools and a new senior high school. The municipal school plant has a total valuation of \$4,225,000. There are 309 instructors, and the annual budget is three-quarters of a million dollars. The excellent collegiate educational structure will be commented on later.

An up-to-date fire department consists of 47 men, efficiently governed and equipped with the latest apparatus. Greensboro has one of the most complete fire alarm systems in use today. Every part of the city and many important buildings are covered with alarm boxes. Greensboro's record in reduction of fire losses is outstanding. In 1927 the inter-city award was won for the lowest fire loss of any city in its class in the United States, and in 1928, 1929 and 1930, honorable mention was received in the same contest. There are five station houses strategically located in the city, and the equipment has a value of \$433,500.

Greensboro's police department comprises 48 officers and men. It is provided with modern physical facilities, radio intelligence equipment, a complete and efficient identification bureau, and a comprehensive system of city-wide telephone signals with centralized control. Short-wave radio transmission has been installed at headquarters to maintain constant communication with "roving" police automobiles. Greensboro has long been kept free from organized lawlessness such as prevails in many other cities.

Two essential steps have been taken in planning for the future—the adoption of a comprehensive city plan administered by a competent planning commission, and the enforcement of a modern building code. Zoning laws

NEW UNION RAILROAD STATION

have been passed to maintain desirable neighborhood classifications. Municipal activity has been governed insofar as possible with an eye to the future growth of Greensboro.

#### A Healthful Place to Live

Greensboro is blessed with a mild, life-prolonging, delightful climate. Its average monthly temperature compares favorably with that of famous European resorts along the Mediterranean shores of northwestern Italy and southern France. Greensboro has neither bitter winters nor oppressive summers, but rather only a moderate fluctuation from the coldest to the warmest days.

Greensboro's altitude (843 feet) and drainage practically eliminate "low-country" ailments, such as malaria fevers. The air is clear and bracing, with no violent atmospheric disturb-

ances. The Government Weather Bureau figures over a period of forty years show that Greensboro has more clear days (136 per year) than Jacksonville (129), Miami (99), Tampa (126), Atlantic City (123), or Asheville (124). Greensboro has comparatively little snowfall (total average, 6.8 inches per year) as compared with such centers as Atlantic City (16.9), Denver (40.4), Asheville (11), Omaha (19.9), and Chicago (33.7).

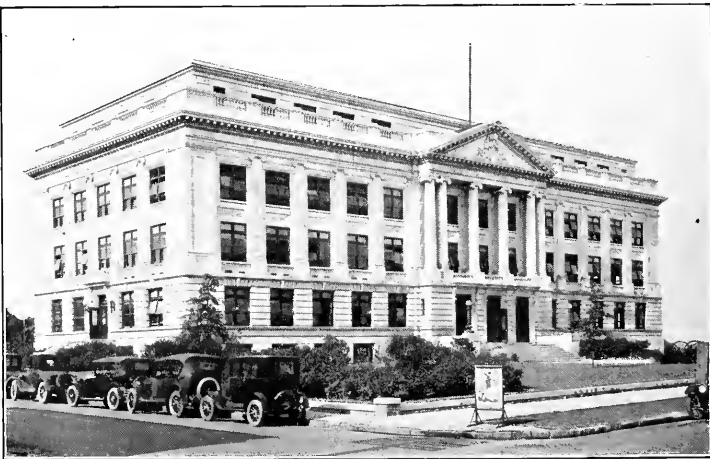

United States Weather Bureau reports for Greensboro:

Normal average temperature (annual), 59 degrees.

Average humidity, 53.135.

Annual precipitation, 47.47 inches.

Greensboro is only two hours' drive from those famous winter resorts—Pinehurst and Southern Pines, and only four to six hours' drive from

GUILFORD COUNTY COURT HOUSE, GREENSBORO

VIEW OF AYCOCK AUDITORIUM AND MUSIC BUILDING AT  
NORTH CAROLINA COLLEGE FOR WOMEN

mountain summer resorts such as Asheville, Blowing Rock, Linville, Roaring Gap and Chimney Rock. Its climate is the "happy medium" between that of these resort centers, being on the plateau between the mountains and the coastal plain. Taking advantage of this climatic ideal, a beautiful all-year resort center has been established at Sedgefield, near Greensboro, which has become widely known as a golfer's and sportsman's paradise. Relatively high daytime temperatures give relief from the severity of Northern winters, and low night temperatures permit comfortable sleep, in contrast to the enervating heat prevailing further south.

#### Recreational Facilities

Greensboro is the sports-lover's paradise. Golf, tennis, horseback-riding, hunting of all sorts, fishing and a host of other sports are available either in Greensboro or in the immediate vicinity. A prominent part of this phase of the city's life is played by the new World War Memorial Stadium, within a few blocks of the heart of the city, which attracts many of the major college athletic events of the section, and the leading inter-scholastic events. Greensboro has a professional ball club in the Piedmont League and is training headquarters for several clubs belonging to the St. Louis Cardinals.

SEDFIELD INN AND GOLF COURSE

The stadium seats 9,200 persons, and is equipped with fields for day or night-time football, baseball, track, tennis and other sports. The stadium was erected in 1927 at a cost of \$150,000, donated by citizens of the city and county.

Greensboro has one public and two private golf courses. The famous Valley Brook course at Sedgefield Inn is a championship layout, where competitions of national import are staged. The Southern Amateur Tournament was held there in 1930. The Greensboro Country Club course is one of the oldest Class "A" courses in the South. The Hamilton Lakes course, now known as "Starmount," an 18-hole layout of rare beauty, was put in play in the fall of 1930. Designed and built as a championship course, it is being considered favorably for the

National Public Links Tournament. The equable year-around climate here makes Greensboro ideal for golfers.

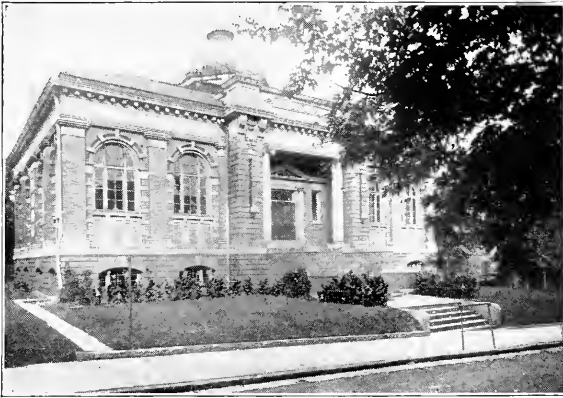

Greensboro's theatres are up-to-date, both as to their houses and the character of their entertainment. The moving-picture houses have a total seating capacity of 5,500.

Due in part to the local colleges, Greensboro has, for nine months of the year, the satisfying advantage of fine music, famous singers, orchestras, opera, outstanding lectures and the like. Such organizations as the Civic Music Association and the college dramatic societies make a real contribution to the aesthetic life of the community.

About 1,500 acres of land have been set aside for parks and playgrounds in Greensboro, and the city has the reputation of having more play area

JEFFERSON STANDARD LIFE INSURANCE COMPANY BUILDING

GREENSBORO PUBLIC LIBRARY

per student about its public schools than any city in the country. Three Y. M. C. A.'s, Y. W. C. A., professional league baseball, public and private swimming pools, trap-shooting and "skeet," bowling, and similar facilities offer a wide variety of recreational opportunities.

Five miles from the heart of the city is beautiful Guilford Court House National Military Park, the scene of the famous encounter between Cornwallis and General Nathaniel Greene. The battlefield contains twenty-two memorials to Revolutionary heroes. This historic preserve is visited yearly by thousands of tourists, and in 1931 was the scene of the sesqui-centennial celebration of the battle, which was attended by over 40,000 spectators from all parts of the South and East.

#### **Educational Facilities**

An outstanding advantage of Greensboro is its extraordinary educational structure. Six thousand out-of-town students and faculty members attend its schools and colleges.

Greensboro College, organized in 1838 by leaders of the Methodist Episcopal Church, South, has an enrollment of 357 women students and assets amounting to \$1,056,000. North Carolina College for Women, created by legislative enactment in 1891, has a yearly enrollment of about 3,000 and a faculty of 178, and includes a

college of liberal arts, a school of education, a school of music, a school of dramatic art, a school of commerce, a department of health, school of physical education, and a school of home economics. Five degrees are given, including A. B., M. A. and B. S.

Five miles west of Greensboro is Guilford College, organized by the Society of Friends (Quakers) in 1837. Its enrollment is now about 300. On the other side of Greensboro is Oak Ridge Institute, a preparatory military school for boys. It was founded in 1852, and in 1926 became a Junior R. O. T. C. unit. It now has 246 students and an adequate plant valued at \$250,000. It is a preparatory school for college, and offers a commercial course.

Other institutions in Greensboro are the Greensboro Bible and Literary School, King's Business College and the Greensboro Commercial School.

Greensboro is a center of education for the Negro race as well. Here is the North Carolina Agricultural and Technical College, with a yearly enrollment of 800 and a million-dollar plant. Bennett College for Women and Immanuel Lutheran College for ministers and teachers are also here.

Practically every religious denomination is represented among Greensboro's 73 churches.

## **COMMERCE AND INDUSTRY**

#### **Present Industrial Structure**

In Greensboro, textiles predominate, but do not dominate. Industry is well diversified. There are great cotton spinning and weaving and fabri-

cating plants; broad silk and silk hosiery mills; structural steel, foundry and machinery establishments; terra cotta and chemical works. Altogether Greensboro's industries,

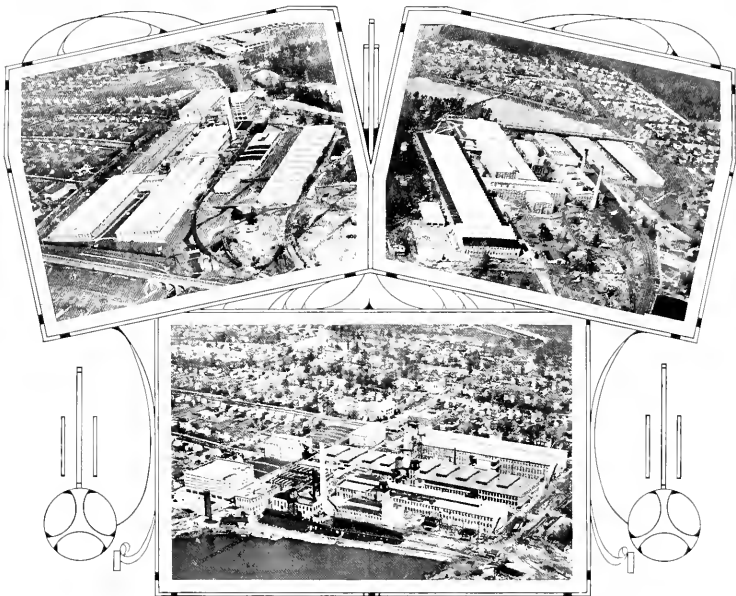

totaling 92 plants, manufacture \$38,-782,000 worth of goods per year; 6,311 workers are employed.

The largest single industry is that of the Cone interests (White Oak, Proximity and Revolution Mills), the White Oak cotton mill being the largest denim mill in the world. The Blue Bell Overall Co. has the largest overall plant in the country. Three hosiery mills are here—Mock-Judson-Voehringer, Inc., Greensboro Full-Fashioned Hosiery Mills, Inc., and the Juvenile Hosiery Mills, Inc. Greensboro is an outstanding full-fashioned silk hosiery center.

trackage or highways. There is a plentiful supply of native white and Negro labor, easily trained and industrious. There has never been a general industrial strike in Greensboro, and industrial disputes of any kind are exceedingly rare.

A constant supply of power is available from almost unlimited resources, and at reasonable rates. Great resources of raw materials are close at hand.

These factors have tended to diversify Greensboro's industrial structure, as well as develop it. The city is not dependent on any one line of manufacture, and consequently is immune

"CONE MILLS"—TOP LEFT, WHITE OAK MILL—TOP RIGHT, REVOLUTION MILL—BELOW, PROXIMITY MFG. CO. WORLD'S LARGEST PRODUCERS OF COTTON DENIMS

Greensboro Mfg. Co. and Universal Apron Co. manufacture sleeping garments and a variety of cotton textile products.

Greensboro is the "home town" of Vick's Vaporub; El Moro, El ReesO and other popular brand cigars; Pomona terra cotta, Glascock stoves, leather goods, fabricated steel and iron, clay products, medicines, automobile bodies, elastic webbing, lumber products, fertilizers, dairy products, ice, laundry machines, woodworking machines and foundry products.

Numerous advantageous industrial sites and a few industrial buildings are available, with adjoining railroad

from those periods of violent depression which paralyze communities in which a majority of the workers are employed in a single line of work. Throughout the entire period of national business decline since 1929, there has been no shutdown of industry in Greensboro.

It is impossible to present adequately here either Greensboro's present or potential industrial advantages. Those interested may obtain from the Greensboro Chamber of Commerce more detailed information. A research staff is maintained to compile intelligently specific industrial and distribution data for responsible inquirers.

Inquiries are handled with professional confidence.

### Retail Trade

Greensboro is a recognized retail center attracting partial purchasers from an area of from 55 to 75 miles in several directions. Approximately 1,000,000 people reside in this trade area. Within one hour's auto ride of Greensboro live more than 650,000 people, according to the 1930 U. S. Census figures. This area has a greater rural and urban purchasing power than any similar area in the Southeastern states, and more paved roads and more automobiles to enable purchasers to reach the market center.

Due to its tremendous market, the retail trade in Greensboro is of a very high type. The shops are modern, and the merchandise handled of a variety and quality above the average. Prominent in the retail life of Greensboro are the two daily newspapers and the several weeklies published here. The Greensboro Daily News, with a morning circulation of about 35,000, is one of the most powerful in the state. The Record is a fast-growing and popular afternoon daily, with a circulation of about 13,000.

Greensboro has 8 hotels, most of which are of the modern fireproof class, offering about 900 good rooms. The O. Henry, King Cotton and Sedgefield Inn are the most prominent.

### Wholesale Trade

Due to its strategic position in transportation and communication, and the centralization here of the business interchange of the Piedmont area, Greensboro's wholesale houses and agency representatives reach out far beyond the bounds of its retail trade. More than 1,500 traveling men have found Greensboro the most logical place for their homes and headquarters, a great many of them traveling from district offices located here. The city has an abundant supply of splendid offices and bonded warehouse space at reasonable rents, and this fact, coupled with an advantageous position, is causing the location here of branch warehouses, district offices, laboratories and agencies.

Within Greensboro's wholesale trade area of approximately 100 miles live nearly 1,400,000 people, with ten towns of 10,000 or more population. In this jobbing area are 1,844 miles of paved, and 665 miles of sand-clay roads, which, together with rail facilities, greatly simplify distribution and close customer contract.

Greensboro holds the dominant place in the state and reaches into the surrounding states, in hardware distribution. In drugs it is almost as favored, and it is particularly strong in the distribution of food products, produce, tobacco, bread, dry goods and clothing. The Chamber of Commerce has compiled exhaustive data on the consuming power and distribution advantages of this territory.

### Commercial Center

Seven insurance firms have their home offices in Greensboro, and a number of state headquarters for out-state companies are located here, causing the city to be called "the Hartford of the South." Almost every type of insurance coverage is provided locally, giving Greensboro companies an annual premium income of approximately \$19,000,000. Over \$450,000,000 worth of life insurance alone is in force by Greensboro companies. These companies have made substantial investment in physical properties in Greensboro and the surrounding section. Their business is steady; their payrolls constant. They provide a stable and diversified commerce enjoyed by few contemporary cities.

Greensboro has adequate facilities for doing business, such as banking, transportation, communication, professional services, etc. It is a natural banking center. The North Carolina Bank & Trust Co., with its commercial branches in many other North Carolina cities, administers in Greensboro the financial resources of a wide area.

The services of nationally-recognized accountants, accredited appraisers, outstanding lawyers and technical advisors are available as a necessary business aid. The municipal government is organized and equipped to provide the physical fa-

PILOT'S-EYE VIEW, PILOT LIFE INSURANCE COMPANY HOME OFFICE

THE O. HENRY HOTEL

cilities and services needed to promote and safeguard the commercial and industrial interests and progress of Greensboro.

Greensboro possesses unusually well-balanced economic advantages. All its "eggs" are not in one "basket." The sources of income, the facilities for commerce and the potentialities for progress are widely diversified, providing insurance against excessive

fluctuations, booms or depressions. Greensboro is a safe, sound, secure and stable place in which to live and work.

# Corrections

---

An appreciable number of people listed in this directory as citizens of Greensboro have died since the census was completed. Others have moved away because of financial reverses, promotions or changed conditions.

The National Life, ninth oldest among America's old line mutual companies, has arranged to not only take care of the families of thousands who die each year, but also arranged through its annuity and life income contracts to provide an adequate income for the declining years of life, thus often making it possible to remain in the city in which we are all glad to live.

That we may help you to plan your future and the future of your loved ones is our sincere wish.

## LIST OF NAMES

Any Business — Any Locality  
Accurate and Up-to-the-minute

WE publish over 700 Directories—City, County, State, National and Trade. We furnish real live up-to-date lists of all trades and professions.

As directory publishers we frequently have available for lists the manuscript copy from which directories are being compiled, and thus you may secure information in advance of publication, a service that cannot be had elsewhere.

We have no trade lists—our information is taken from the latest sources, and above all things, is accurate.

HILL DIRECTORY CO., Publishers

RICHMOND, VA.

ADVERTISING  
**GREENSBORO**

DO YOU KNOW THAT A COPY  
 OF THIS DIRECTORY OF

**GREENSBORO**

is being placed in the Directory Libraries and among the commercial bodies, business men's clubs, chambers of commerce and the larger business institutions throughout the United States?

No other medium on earth can convey so complete and comprehensive an index of the city, its various industries, its business, educational and religious institutions, its social life and its people.

No other medium can tell so fully of its wonderful growth, its opportunities and its possibilities for the future.

THE PUBLISHERS ARE DOING EVERYTHING  
 POSSIBLE TO MAKE THIS DIRECTORY A  
 CREDITABLE REPRESENTATIVE OF

**GREENSBORO**

ARE YOU DOING YOUR SHARE?

**Directory of Householders, Occupants of Office Buildings and  
 Other Business Places, Including a Complete  
 Street and Avenue Guide**

## 1933

Copyright, 1933, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, followed by numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

## **Locating Missing Heirs Finding Lost Persons**

**This is only one of the many offices that the modern  
directory successfully fills**

The directories of the United States form a perpetual inventory of the human element of the nation as well as the business activities.

Police Departments, the country over, rely upon directory information for the location of lost persons. Lawyers and executors of estates are likewise dependent on the information that these "city catalogs" contain.

Real Estate buyers and agents have multitude occasions to refer to the pages of directories of other cities in order that they may have detailed and authentic information on parcels of land and subdivisions in which they have a personal or business interest.

Credit managers have unlimited use for the pages of the modern directory, as have collection managers and agencies.

The uses of the city directory are legion; the information is authentic and the manufacturers and companies that are represented therein are reputable and dependable.

**Make More Use of Your City Directory !!!**

**TRADE!** You like  
to patronize those concerns  
who are in business to stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quick and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

**THE PUBLISHERS**

# This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and

social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

**\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.**
